

Bond Of Friendship

**Friends we are everywhere together,
So we will be forever.
The more fights we have,
The more closer we get.**

**The memories we've had ,
Will be cherished for years long,
I will always remember that smile you had
And how they never made me sad.**

**This knot has two perfect ends,
Because it joins us as perfect friends.
Just remember you will always be
The best friend I'd ever need.**

Without them there is no good mood.
It really is a special bond
Of which everyone is fond.**

And make us really cheerful.
The years that we have spent together,
They just make our friendship better.**

Bond Of Friendship

**We are going to different schools
And i know it will be hard
We were the bestest friends
And now we are ripped apart.**

**It all has changed now
We can't be together anymore
No more notebooks to exchange
Or laughter to adore.**

**I will never forget that smile of yours
And now it made me glad
Just remember that you'll always be
The bestest friend I ever had.**

**This knot has got two perfect ends
Because it joins two perfect friends
And just as one friend comes apart
The other bond of friendship starts.**

Bond Of Friendship

Friendship is a everlasting bond
You share it with someone whom you're fond.
You share secrets,
And you trust,
And you absolutely must-
Do everything together.
Like two feathers of a bird.
You share the same hope,
You share the same dreams,
You trade for ice cream.
You borrow clothes.
You play when you're bored.
You have memorized their number.
That's what friendship means to me,
Find that one who sets you free.

Bond Of Friendship

**Friends will be with you,
Forever in life.
They will be on your side whatever you do,
You will make the best memories with them.**

**Sometimes they will be on your side,
Sometimes they might have fought.
Playing with them on a big slide,
Or teaching them how to tie a knot.**

**Let's not leave our friends,
The regret will be forever.
With them let's catch on the new trends,
I will never betray them, never!**
